MICHIGAN ENGINEERING
UNIVERSITY OF MICHIGAN

Online Application for the College of Engineering Graduate Professional Programs

Letters of Recommendation

Electronic submission is the highly preferred method to submit letters of recommendation. Answer "Yes" to the question that appears below "Use online recommendation system?" If your recommender needs to send a letter of recommendation by postal service or email, answer "No" to the question that appears below "Use online recommendation system?" and send an email for further instructions to: engin.pro.prgms@umich.edu (mailto:engin.pro.prgms@umich.edu)

Letters of recommendation should speak to your overall professional and academic strengths and accomplishments. For example, your recommenders may address a course, team project, assigned task(s) where you have excelled, shown unique problem solving skills, leadership abilities, and moral fortitude. We would like to see what strengths you have that would make you a well rounded candidate and good fit for the M.Eng. program. Letters of recommendation should be requested from your academic and professional contacts. Please note we will not accept letters of recommendation from friends, family members, or yourself. **Letters of recommendation must be submitted directly from your recommender to be considered official and meet our application requirements.**

Recommender 1

First Name	Jerome
Last Name	Theau
Title	Professor
Institution/Company	University of Sherbrooke
